The Circular Maturity Level Self-Assessment Tool will be soon released!

We have developed an online self-assessment tool to help companies evaluate their maturity level and readiness to implement Circular Economy practices. By answering a set of questions, furniture companies can assess their progress, identify priority areas for improvement, and receive tailored recommendations.

The tool is currently being tested by selected companies before its public release and will be available in 10 EU languages.

The D5.1 blueprint proposal for deploying take-back scheme in furniture sector has been released!

The **D5.1 Blueprint proposal for deploying take-back scheme in furniture sector** is now available to download on the project website:

<https://furncircle.eu/downloads>.

This strategic document contains a series of recommendations, guidelines and technical, economic and environmental considerations to support the sector in European countries/regions towards the successful design and implementation of a take-back scheme.

FurnCIRCLE Final Conference at EFIC Furniture Days 2025!

We are pleased to announce that the FurnCIRCLE Final Conference will take place on **June 12th** in **Udine**, as part of the **EFIC Furniture Days 2025**. This event will be a unique opportunity to present the project's key results to a broad audience of furniture industry representatives, experts, clusters, and stakeholders.

FurnCIRCLE has been dedicated to advancing **circular economy practices** in the furniture sector, and this final conference will showcase the progress made, key findings, and practical solutions for businesses. Participants will also have the chance to engage in discussions on the future of circularity in the industry and explore opportunities for collaboration.
